ABOUT ME

I am passionate about using technology to solve complex problems and simplify everyday lives. Currently pursuing a degree in Applied Science and Computer Technology at USIU-Africa, I have gained practical experience through various projects. I developed a website [DenModa Manufacturer](<https://denise-hub.github.io/DenModa-Manufacturer/>), showcasing my skills in web development and design. I am eager to improve my skills in cybersecurity and look forward to making a significant impact in this field.
